TORN OPS SUITE // DOSSIER

Automated Faction Warfare Command, Mathematical Settlement & Intelligence Platform

Mildly Dangerous [57693]
LEADERSHIP DOSSIER • Eklatant [4430788]

100% TOS	1,900+	88%+	384
ZERO IN-GAME AUTOMATION	POOLED REQ/MIN CAPACITY	CRIMES 2.0 SUCCESS ODDS	VERIFIED LEVELING TARGETS

CONFIDENTIAL LEADERSHIP SUMMARY: This suite delivers an end-to-end operational advantage for **Mildly Dangerous [57693]** across Ranked Wars, Organized Crimes, and banking audits without requiring members to install client software or expose administrative API privileges.

OCTOBER 2026 RELEASE

War Room & Tactical Radar

COMBAT COMMAND

Real-time sub-second synchronization with active Ranked War telemetries.

- **Live Chain Watchdog:** High-precision timeout countdown with clutch-save bonus markers and escalating role alert triggers.
- **Split Tactical Roster:** Real-time split view between Opposing targets (with instant `page.php?sid=attack` links) and Friendly roster (revive & messaging callouts).
- **24-Hour Opponent Sleep Heatmap:** Ingests 7-day UTC activity logs to pinpoint the enemy faction's sleep windows for uncontested chain blitzes.
- **Dynamic Hospital Telemetry:** Automatic target classification (Available vs. In Hospital) eliminating wasted fighter energy.

Fair-Share War Settlement

TREASURY & LEDGER

Transparent mathematical payouts replacing error-prone manual spreadsheets.

- **Official War Report Ingestion:** Pulls verified attack logs directly from Torn API (validated against official War #50506 with 11 real fighters).
- **Weighted Multiplier Formula:** Configurable base pay per hit, respect modifier, fair-fight bonus, assist splits, and defense penalties.
- **Clutch Hit Bounty Multiplier:** Dedicated bounty bonus allocated to fighters who execute chain saves with under 30 seconds remaining.
- **1-Click Vault Distribution:** Exports directly to Torn Vault batch transfer format to disburse entire faction payrolls in under 15 seconds.

Organized Crime 2.0 Optimizer

ROLE-GATED (AA)

Advanced member skill matching with strict permission separation.

- **Leader AA Lineup Matching:** Algorithmically scans faction skill proficiencies across 8 disciplines to construct highest-confidence rosters (88%+).
- **Persistent Slot Locking:** Leaders can lock confirmed members into critical slots so automated optimizers cannot displace them.
- **Stalled Invitation Telemetry:** Detects pending invitations holding up team launch timers and provides 1-click Discord nudge alerts.
- **Restricted Member Portal:** Non-leaders see strictly their assigned mission, assigned slot, and personal skill ratings with zero access to leadership controls.

Baldr's Leveling Directory

384 INACTIVE TARGETS

Curated database of high-level, ultra-low battle stat targets for level 15 speedruns.

- **384 Curated Inactive Accounts:** Encompasses Baldr's List 1, 2, 3, Extra Lists 1–3, and DOMINO List (targets down to 54 total battle stats).
- **Automated Live Status Radar:** Background checks visible targets on load; marks Available, In Hospital (with countdown), or Traveling.
- **Status Filtering:** 1-click filter hides hospitalized targets so recruits only engage targets available on the streets right now.
- **YATA & TornPDA Export:** 1-click export formatted for immediate import into mobile TornPDA and desktop YATA profiles.

AUTOMATION, BOT ARCHITECTURE & SECURITY

Discord Daemon Telemetry, Vault Ledger & Userscript Suite

BOT ID: 1558116499678306454

Faction Discord Operations Bot (@torn/bot)

DISCORD.JS V14 GATEWAY

Autonomous event monitoring and on-demand faction slash commands operating 24/7.

SLASH COMMAND	OPERATIONAL PURPOSE & TELEMETRY	ACCESS CONTROL
`/chain`	Reports live chain counter, timeout remaining, and recent hitter telemetry.	ALL MEMBERS
`/hospital`	Monitors enemy war roster; posts targets leaving hospital with 1-click attack URLs.	WAR HITTERS
`/targets`	Queries 384 Baldr targets with live availability check (Available vs. In Hosp).	NEW RECRUITS
`/withdraw`	Submits a member vault withdrawal request into the banker queue.	ALL MEMBERS
`/balance`	Audits personal faction vault balance and recent historical deposits.	ALL MEMBERS
`/verify`	Privately links Torn account; encrypts Limited API key and pools rate capacity.	EPHEMERAL / PRIVATE
`/setup`	Configures alert channels, war radar rooms, and role ping triggers.	LEADER / ADMIN ONLY

⚡ **Chain Watchdog Daemon (15s Poll):**
Escalates warnings at 120s, 60s, and fires emergency role alerts at 30s to prevent broken chains.

🏥 **Hospital Watchdog Daemon (20s Poll):**
Continuously tracks opposing war fighters and announces revives/exits with instant attack buttons.

Faction Banking & Vault Ledger

AUDIT SECURITY

- **Automated Deposit Sync:** Continuously ingests official Torn `fundsnews` logs to credit member balances without manual entry.
- **Batch Transfer Clipboard:** Generates formatted batch strings allowing bankers to execute multiple player payouts in Torn in under 10 seconds.
- **Role-Gated Security:** Non-banker members only access self-service request queues; financial ledger remains locked to Leadership.

Tampermonkey Userscript Suite

BROWSER ENHANCEMENTS

- **Target War HUD:** Floating in-game filter on Torn Ranked War screens hiding hospital targets and highlighting easy hits.
- **Armory Stock Sentinel:** In-browser warning banner when medical items (Morphine, First Aid, Blood Bags) dip below safe thresholds.
- **Energy & Travel Notifier:** Native desktop notifications when energy reaches 100/150 or when aircraft lands at destination.

Deployment & Authorization Checklist for Faction Leadership

60-SECOND ONBOARDING

1. Terms of Service: 100% compliant with Torn City rules. The suite operates strictly as an intelligence and coordination interface with zero automated attacks, macros, or botting.

2. Authorize Discord Bot: Authorize the official faction bot using the pre-configured Discord OAuth2 invite link:

```
https://discord.com/oauth2/authorize?client_id=1558116499678306454&permissions=8&scope=bot%20applications.commands
```

3. Run Channel Setup: In Discord, execute `/setup faction_id:57693` to configure chain alert and war room broadcast channels.
